

AYZRE™

HANDS-FREE DOOR OPENER

The turning point in hands-free entry.

Ayzre™ is the first hands-free door opener that extends above the lever, allowing latch retraction and pushing or pulling without the use of hands.

With nearly 80% of viruses and bacteria spread by hand, Ayzre™ helps promote a safe and compliant environment for one of the highest-touch surfaces in any facility - the door handle.

Hygienic and Hands-Free

Reduce touchpoints and promote a healthier environment at your facility. Acting as a lever extension, simply use your elbow or forearm to lower the lever. Ayzre™ has an antimicrobial finish and is powder-coated for durability.

Compliant and Safety Rated

Ayzre™ meets fire and life-safety guidelines, maintains code compliance, and is ADA-friendly, providing a safe, cost-efficient, and easy-to-use solution to reduce community spread of germs.

Retrofits with Easy Installation

The Ayzre™ collar is mounted over the shank of existing Grade 1 lever/Mortise locks, and includes four adapters to ensure a tight fit to different lever designs*. Ayzre™ is quickly installed without drilling into the door.

AYZRE™

HANDS-FREE DOOR OPENER

Ayzre™ acts as a lever extension. The lever remains intact and accessible, but the Ayzre™ arm bracket allows rotation to pull or push the door open.

- Hygienic
- Antimicrobial
- Fire-Rated
- Ergonomic
- Easy to Retrofit
- Installs in 10 Mins
- Drill-Free

Ayzre™ can be installed on doors* with:

- Cylindrical Lever Locks
- Mortise Lever Locks
- Exit Device Lever Trim

Hands-Free Door Opening Comparisons

	Door Application	Restrictions
Arm Pull	Push/Pull Doors	Doors with Latches; Requires Drilling into The Door
Foot Pull	Push/Pull Doors	Doors with Latches; Requires Drilling into The Door; Not For Use w/ ADA-Accessible Doors
Auto-Operator	High-Traffic Entries; ADA-Compliant Push/Pull Doors	Requires Power Source and Multiple Elements; Expensive; May Require Professional Installation
Ayzre™	Doors with Latches*	Push/Pull Doors; Knobs

* Grade 1 locks recommended. Some lever styles may not be suitable for Ayzre™.
